

Armaproof Membrane

Anti-cracking waterproof membrane in polyethylene and non-woven fabric

Anti-cracking waterproof membrane to be applied before laying ceramic, natural stone and parquet coverings. In combination with the other products of the I.T.W.S (Integral Terrace Waterproofing System) it creates perfect and long-lasting waterproofing even on substrates that are cracked, not perfectly seasoned or with possible vapor pressure due to residual humidity coming from the substrates. Crack bridging, vapor management and sound absorption are the distinctive features of this innovative waterproof membrane.
